## Color Anodized Finishes

**Clear Anodize**

**Dark Bronze Anodize**

1.) The paint and anodize colors shown are not actual paint or anodize. These samples represent the paint colors as closely as possible within the limitations of printed color-chip reproduction. Actual coatings and anodize samples are available on request.

2.) All WinTech standard paints are powder coat versions of the colors shown. Custom powder colors in AAMA 2603, AAMA 2604 and / or liquid versions including AAMA 2605 paints, metallic colors and clear coated colors are available, but require extended lead times and costs.

Your WinTech representative has the knowledge  
and experience to assist you with finding  
the best finish option for your project.
